

...are you planning an event?

...are you concerned about generating tons of trash?

Learn how to minimize or even eliminate trash at your event. Attend this FREE workshop, hosted by Boone Watershed Partnership and ETSU Department of Geosciences.

Planning a Zero-Waste Event Workshop

with **JOHN HOMA, Solid Waste Project Manager for Knoxville, TN**

9am – 11am on Tuesday, October 19th, 2010

Forum Room, 3rd floor Culp Center, East Tennessee State University

Free Continental Breakfast served at 8:30am

A Zero-Waste Event provides leadership in protecting our environment by reducing the amount of “waste” or valuable resources that are sent to landfills. Instead of burying these materials, they are collected and diverted from the landfill for reuse, recycling and composting. Create leadership – not more trash!
